The fabulous Bloons series has always been a colorful and clever spin in the tower defense genre. When you're facing human opponents in Bloons TD Battles, however, you'd better be as sharp as an airship-bursting grip. Don't be fooled by the mischievous monkeys — this is a fascinating strategy game and intense head-to-head hijinks. This is a really amazing game, and I recommend it to everyone. But there is something that could be improved. Number one, half the stuff costs real money. I understand that, but maybe do more buyable things with medallions. Number 2, people who have played their whole lives and have such an unhealthy amount of medallions play in the free room. This often does not give beginners a chance. Number 3, as a beginner it can be difficult to get medallions. I think the game would be more fun if there were more achievements and more or all of them rewarded medallions. That's not really a problem, but I want to mention it. It may take some time to progress. Also scrolling fast game to the left because it only shows the most expensive rooms. Edit: after reading some reviews I definitely agree that there should be a practice room, or a way to play with our xp/loser medallions. You must also take more than 30 seconds to edit deck or make a way to edit deck out of card battles. Besides problems with these, great game. Another issue. So I was playing. Match and my opponent disconnected, but then he kept saying sync so I stopped and gave us both medallions. I have been playing this game for almost a year now and I noticed some minor problems. First, game modes that have powers can be a problem for lower-level players. Some high-level players have OP powers doubling the balloon speed or something similar. These powers can be very frustrating for lower levels because they cannot get them. You would have to grind constantly just to get some good powers because they are so expensive. I think they should make the powers less control of the game and focus more on the towers. Second, I recently started having this problem where I can't get into a game. That's why I'm writing this review. Every time I try to get into a game it will only say growing bananas for a few minutes. I don't know why he does it because before when I threw the I would enter a game in about 30 seconds. This is a big problem for me because I'm currently around 30,000 medallions and I can't get more. I worked very hard to get them and now it's just just to waste because I can't use them to get into arena games. My favorite thing about this game is the idea of using your medallions to unlock new levels for towers and new towers. It keeps the player wanting to grab the tower and play the game even more. Overall, I think this is a very good game besides the failure of me not even being able to play it. I don't know if that happens to other people, but I think it needs fixing.
